

# *Polar Expedition*

23 September to 10 October 2026

This is a true expedition cruise for those of you who are dreaming of an exclusive Arctic wilderness experience.

Our small and charming ship, M/S Stockholm, will head out on an expedition cruise from Svalbard to Tromsø.

We aim to visit sites that are hard or impossible to reach during the summer season. Autumn in Svalbard provides beautiful soft photo light, magnificent sunsets, crisp autumn colours and chances to see the magical Northern lights dancing in the sky.

September is a perfect time to explore the landscape on foot and we hope to head out on several refreshing hikes to enjoy breath-taking scenery, dramatic wildlife and the Arctic silence, While sailing and exploring, we will keep our eyes peeled for the fantastic wildlife

Svalbard has to offer such as the Svalbard Reindeer, Arctic Foxes in winter fur, Humpback Whales, several seal species, Walrus haul outs and the King of the Arctic...the Polar Bear,

After some time in the untamed wilderness of Svalbard, we continue our voyage towards Northern Norway. On our way we pass the remote Bear Island, locate in the middle of the Barents Sea. In Northern Norway we will experience the spectacular fjord landscape around Tromsø.

Here we enjoy the views while keeping a lookout for Humpbacks and the Northern lights. We also plan to sail into some of Northern Norway's most stunning fjords such as Kvaenangen and Lyngenfjorden

*Real African Experiences*

The number of days we will be in Svalbard before heading to Northern Norway is not set. Since autumn in these areas can be windy, the time of our passage will be determined by the weather and wind conditions. This is one of the reasons we call it a true expedition cruise! Access to the pack ice and the seeking of wildlife on and around it is another hallmark of this expedition. At a certain stage we may be the northernmost civilians on earth!
